

Brief CV

Name	Qingsheng Wang	中文名	王庆生	
Gender	Male	Title (Pro./Dr.)	Pro and Dr.	
Position (President...)	President	Country	China	
University/ Department	Peter the Great Sait-Petersburg Polytechnic University/Materials Physics and Chemistry			
Personal Website	No			
Research Area	Thermoelectric chemical of material			
<p>Brief introduction of your research experience: Research and analysis of thermoelectric chemical properties of materials; research on modification of materials by high temperature spheroidization and surface treatment; development and research of high anode and cathode materials for lithium ion battery; development and application of organic and inorganic ceramic composite isolation film and development of diaphragm phase separation equipment (won a number of invention patents); development and engineering of safety system for porous electrode preparation, solid electrolyte and quasi-solid polymer lithium ion power battery; research and development of 3D printing materials for glass carbon alloy and titanium-based alloy powder.</p>
